On the Salmon bill, 10 per cent was withheld on the paving and also 10 per cent on the cross-walks, the latter, until they are cleaned up and received by the city.

Councilman Caldwellwood reported that the students of the S. S. A. wished to use the city pavilion and that the floor was in poor condition. That the students would repair the material. Also that the Summit County Fair Association wanted the privilege of putting "compo" board on the side walls. The matter was referred to the committee on city property.

Councilman Wilde reported on the matter of paying for half of the poles used for a trolley at the city park. He recommended that the city pay nothing on trolley until the Fair Association build a good one. On motion the recommendation was accepted.

On account of a depleted treasury the city having paid J. H. Salmon \$3,290.34 on paving, Councilman Wilde offered the following resolution:

Resolved--That the Mayor be empowered to borrow an amount sufficient to pay the bills ordered to be paid by the council on file with the city recorder, to an amount not to exceed \$500, interest not to exceed 8 per cent. The actual amount to be borrowed to be determined by the difference on the treasury and the amount if the bills to be paid. All councilman voting "aye" on the resolution.

On motion council adjourned to Monday night, Jan. 9, 1910.

## Coal...

Weber Coal spells economy. Try a ton. It will do a ton's work. Do not take any chances this season in the matter of fuel. Coal that produces the greatest amount of heat; coal that burns to the last ounce; coal that is all coal, and the ash of which is evidence of its heat energy--that's the kind of coal we sell

## Practical Railroad School for Western Boys

The established policy of the Union Pacific Company toward its efficient employees is to promote them to positions made vacant, provided they have been loyal to the service of the road and have fitted themselves for promotion.

Union Pacific not only promotes its own men, but offers to them, free of charge, the means to obtain the knowledge necessary to fit them for holding positions of greater responsibility.

Union Pacific Company maintains a free Correspondence School at Omaha. Instruction in all lines of practical railroad work is given to its employees first, then to the sons of its employees, then to the sons of the families living along the Union Pacific Lines.

It is these progressive policies that make the
